W. POXON WINS DISTRICT HONORS IN ORATORICAL CONTEST

The elimination contest for the Dominion Oratorical honors in the Carbon-Three Hills disaric was held in the Farmers Exchange hall, Carbon, on Monday night, but the crowd was not as large as it should have been on this occasion. There were only two contestants, Ralph Haig of Three Hills and Wilfred Poxon of Carbon. Wilfred drew the honor of first speaker and at the conclusion the judges, Reat Atcheson of Three Hills and J. Connolly and Mrs. McNaughton of bon, unanimously gave their decision in his favor and Wilfred will now go to the City to compete for Provincial honors.

L.B. Hart addressed the gathering for a few moments and during the evening the following program was presented: Vocal solos by Mrs. Torrance and Mrs. Evans. A vocal duet by Mrs. Malton and Mrs. Peters. Piano duets by Mrs. McKibbin and Miss Watkins, and a reading by Mrs. Malton.

G. Peters acted as chairman and he gave a short address on the work of the Oratorical Contest and its benefits.

FIELD SUPERVISOR TO SPEAK

Mr. Frank Stevens, Field Supervisor of the Department of Agriculture, Will address the public meeting of the Municipal District of Carbon No. 278, in the Masonic Hall next Saturday afternoon, February 16th. His subject will be on Weed Control and Eradication.

NEW BUS ON CALGARY-ACME CARBON ROUTE

Although the fire last Tuesday destroyed the Carbon bus, the service was not discontinued for long and on Friday last Fred Poxon arrived in Carbon with a new Reo bus. The new bus will seat about sixteen passengers and is equipped with wicker chairs and fitted up with all modern conveniences. The bus is also well heated and is warm at all times and the service between Carbon and Calgary is now equal to any bus service in the Province.

VOTE OF APPROVAL TAKEN ON COMMUNITY HALL SITE

At the regular meeting of the Elks Lodge on Thursday night a motion was passed to hold the purchase of a hall site over till a later date. However, a vote was taken on the approval of a site and it was unanimously the will of the Lodge that the site opposite C. H. Nash's store be that on which the proposed hall should be built.

MARKED INCREASE IN COAL PRODUCTION

Coal production in Alberta in 1928 reached a new high level when 7,250,000 tons were mined throughout the Province, according to figures recently announced by the Mines Branch. Good success is attending the campaign to popularize Alberta coal on the Ontario market and some 30,000 tons have already been shipped east under the $6.75 freight rate, which has been in effect since January 15th. This coal is being well distributed in Ontario and large numbers of repeat orders have been received from dealers who state that the Alberta product is in good demand. An extensive advertising campaign is being carried on by Alberta coal operators thdough the Trade Commissioner's Office in Toronto and it is expected that this market will be still further extended.

LITTLE ITEMS OF LOCAL INTERERT

Jack Atkinson and Sydney Wright left on Saturday to attend a Tractor course at Technical School.

Wilfred Poxon was a Calgary visitor on Saturday.

Sam Garrett was also a Calgary visitor last week.

Jas. Flaws has been confined to his home the past week suffering from cold, which he contracted at the fire.

Born, to Mr. and Mrs. E. J. Rouleau on Monday, February 11th, a son. Both mother and son are getting along splendidly.

Mr. and Mrs. L. Poxon were Calgary visitors last week.

Adam Ohlhauser is the owner of a new Dodge sedan.

There was no election of councillors on Monday, W. A. Braisher having withdrawn his nomination and thereby electing Jas. Flaws by acclamation. The new council will consist of J.A. MacDonald, S.J. Garrett and J. Flaws.

Mr. and Mrs. J.J. Greenan were Calgary visitors on Monday.

Miss Ellen Wiertz who has been out nursing her father, H.A. Wiertz, left for Calgary on Monday.

Mr. and Mrs. J. O'Rourke came out from the City on Monday.

Nurse Lowe of Calgary arrived on Monday night and is attending Mrs. E.J. Rouleau.

We understand that Miss Daphne Nash has completed her course at the business College and is now polishing up on her work.

TO FORM COURSE GRAINS POOL

Announcement is made from the head office of the Alberta Wheat Pool in Calgary that the directors of this organization have definately decided to proceed with the formation of a course Grains Pool and that this will be in operation in time to handle the 1929 crop. This developement, it is stated, will not necessitate any new selling organization as the course grains will be handled through the central selling agency of the Pool. It is pointed out that only members of the Wheat Pool will be eligible to participate in the Course Grains organization. While no definate statement is made, it is probable that oats and barley will be handled for pool members under the new arrangement.

Willie—Did Mr. Edison make the first talking machine, Pa?

Pa—No, my son. God made the first talking machine, but Edison made the first one that could be shut off.

CARBON ELKS INSTITUTE ACME LODGE No 216 B.P.O.E.

About thirty-five members of Carbon Lodge No. 195 B.P.O. Elks journeyed to Acme on Tuesday night to institute the new Acme Lodge No. 216. Besides the Carbon members a number of Elks were present from Calgary, including Dr. Spankie and S. S. Savage

About seventy members were initiated into the mysteries of Elkdom on this occasion and with this membership Acme Lodge should predominate in the social life of that community.

The following were the officers of Carbon Lodge No. 195, who had charge of the ceremony: Past Exalted Ruler Len Poxon; Exalted Ruler J. A. MacDonald; Leading Knight A. F. McKibbin; Loyal Knight J.J. Greenan; Lecturing Knight R.S. Shaw; Esquire G. Peters; Secretary H.C. Willson; Treasurer R.J. Fairbairn; Chaplain E. J. Rouleau; Tyler G. F. McGregor; Inner Guard G. Cadman; Historian S. Willis and Trustees Malton Nash and Leiske.

Handling a woman Electrically

When a woman is sulky and will not speak—Exciter.
If she gets too excited—Controller.
If she talks too long—Interrupter.
If her way of thinking is not yours—Converter.
If she is willing to come half way—meter.
If she will come all the way—Receiver.
If she wants to go further—Conductor.
If she wants to be an angel—Transformer.
If you think she is picking your pockets—Detector.
If she proves your fears are wrong—Compensator.
If she goes up in the air—Condenser.
If she wants chocolates—Feeder.
If she sings inharmoniously—Tuner.
If she is in the country—Telegrapher.
If she is a poor cook—Discharger.
If she eats too much—Reducer.
If she is wrong—Restifyer.
If she gossips too much—regulator.
If she fumes and sputters—Insulator.
If she goes the wrong way—Reverser.

A modern flapper is a girl who thinks the plural of "kitchen utensil" is "two can-openers."

CARD OF THANKS

W.H.T. Olive desires to thank all those who so manfully helped in extinguishing the fire at Wm. Olives garage and respectfully suggests that during the winter months a night watchman be employed to see that the hose, etc. is always ready for any emergency.

HOW TO HITCH HORSES FOR CHEAPER FARM POWER
All Farmers interested in making farming a paying proposition should call at my Store and ask for my Booklet on the above subject. This is part of the free service which I intend to give this year.
W. A. BRAISHER

Red Rose Orange Pekoe Tea is truly economical. A half pound makes almost as many cups as a full pound of cheap tea costing 50c to 60c. 76

RED ROSE TEA "is good tea"

RED ROSE ORANGE PEKOE is extra good

In the best package—Clean, bright aluminum

Education and Leisure

It has long been the boast of Western Canada that its people are intensely interested in education. With pride the people have drawn attention to the fact that in towns and villages the most outstanding structures are the schools, while the vast expanse of prairie has been dotted with rural schools, the number of which in the three prairie provinces now approximates closely to ten thousand. These thousands of rural and village schools, larger public and high schools in the towns, still larger schools, collegiate institutes and colleges in the cities, and the three Provincial universities, are but the visible expression of the determination of the people of the West that the children of this and future generations shall not only thus be "prepared for life," but that they shall come to realize that education is life, inasmuch as it is both the accompaniment and the experience of life.

It is said that education is entering upon a new era. No doubt it is, because in this changing world we are always entering upon new eras, and education must do likewise. The basic aims, the great objectives of education abide. Methods change and the setting varies, but it remains true that health is fundamental, the tools and technics of learning are necessary, citizenship is inescapable, service is a radiant star, home is man's great joy, leisure is liberty, and character is humanity's highest good.

Education is not confined to school and college. It does not even begin there, and certainly it does not end there. School is but a means to an end. Through it certain knowledge is imparted, but if that were all our schools would be a dismal failure. At best, schools in imparting knowledge give us tools to use, and, to some extent, train us how to use those tools and others which we will acquire as we journey through life. But education is not passing examinations from one grade to another or the attainment of degrees. Education is a training of the mind equipment to enable us to meet all the joys and pleasures, the pains and sorrows, the duties and responsibilities, the vicissitudes of life, and put them all to the highest possible use.

An educated nation, it has been said, is one that has learned to pursue its interests to the point of a true and catholic culture, to penetrate its prejudices until it has come at truth, and to discover that every man has a contribution to make to the great society in the service of which he attains to freedom."

Five or six years ago, the National Council of Education held a great and noteworthy conference in Toronto, the theme of which was "Education and Life." In April next, it will convene another conference in Vancouver, with the general scheme of its programme "Education and Leisure." The subjects for discussion by noted speakers and authorities from all parts of the world include: Literature; The Moving Picture; Music and the Drama; The Radio; Organized Play, Recreation; Hobbies and Handicrafts; Health in Relation to Leisure.

Life is divided into hours of work, and hours of leisure. It has, however, become customary to consider education almost wholly in terms of work, and little thought has yet been given to education in its relation to leisure. The Lord Chief Justice of England, recently said that "second only to drink, the real cause of crime is the difficulty of finding healthy recreation and innocent amusement for the young." The free hours of a large proportion of youths and adults are occupied with harmful and trifling pleasures. We must realize that it is when the young are idle that they form the habits which may later ruin their lives.

Modern machinery which is steadily displacing man in the production of man's material needs, is producing an ever increasing number of leisure hours. Education in the present and future must concern itself with the provision and enhancement of interests to occupy the leisure of both the child and the adult. There must be interests which education alone can give if men are to gain the faculty of using leisure easily, happily and fruitfully.

Such interests can be found in good literature, in music, in useful hobbies and handicrafts, in organized health-giving play and recreation. Organized games provide education in self-control. To "play the game" is instinctive to youth; developed to its fullest, this natural gift becomes an asset of great national worth and importance in the evolution of a high type of citizenship.

Labor unrelieved by recreation produces fatigue, and fatigue produces hate, lawlessness and despair. Recreation undirected, unregulated, furtive, produces vice, degeneration, and helplessness. Play is the natural expression of all the inborn instincts. When a man is natural and at his best, it is his spirit that plays.

Parents and teachers may well give greater heed to the trend of these modern days, and devote greater and close attention to the encouragement of proper use of the leisure hours of the children under their care.

FLU Germs Breed In the Throat.

First Appear As A Common Cold, But Gain Tremendous Headway In Six Hours

SOME SIMPLE PRECAUTIONS AGAINST INFLUENZA

Simple precautions taken now will enable you to fight dreaded "Flu" which is sweeping rapidly through the whole country. The germs of Influenza gain access to the body through the mouth and throat. Keep the throat healthy and you go a long way towards stopping the trouble. An effective means of prevention is to gargle the throat three or four times daily with Nerviline. Half a teaspoonful of Nerviline in water makes a most efficient gargle. The germ-killing properties of Nerviline quickly destroy any bacteria in the mouth or throat. If the chest is sore, if the throat is hoarse, if you have a cough—be sure to rub the neck and chest with Nerviline. Every drop of it will rub in, and out will come the congestion.

Of course it is absolutely necessary to house-clean the system with Dr. Hamilton's Pills which stimulate the eliminating organs, and rid the system of disease-breeding germs. This combination treatment of Nerviline and Dr. Hamilton's Pills will give prompt and entirely satisfactory results.

Need Continual Warning

Public Seem to Forget Menace of Level Crossing

While the ideal thing would be to eliminate every level crossing in the country—and steps toward that end are being taken—it will be many years before this menace to public safety is a thing of the past. In the meantime the public must be continually warned.

If every person would get it firmly fixed in his mind that each level crossing is dangerous and that each one must be so regarded when approaching it, the death toll from this source will be materially reduced. Motorists cannot afford to fool with level crossings.

RHEUMATIC PAINS DUE TO THIN BLOOD

Relief Comes Through the Use Of Dr. Williams' Pink Pills

The most a rheumatic sufferer can hope for in rubbing something on the swollen, aching joints is a little relief, and all the while the trouble is becoming more firmly rooted. It is now known that rheumatism is rooted in the blood, and that as the trouble goes on the blood becomes still further thin and watery. To get rid of rheumatism, therefore, you must go to the root of the trouble in the blood. That is why Dr. Williams' Pink Pills have proved so beneficial when taken for this trouble. They make new, rich blood which expels the poisonous acid and the rheumatism disappears.

There are thousands of former rheumatic sufferers in Canada, now well and strong, who thank Dr. Williams' Pink Pills that they are now free from the aches and pains of this dreaded trouble. One of these, Mrs. W. F. Tait, McKellar, Ont., who says:—"I am one of the willing ones to tell you of the great benefits I received from the use of Dr. Williams' Pink Pills. After lying in bed for seven weeks suffering untold agony with inflammatory rheumatism, relief finally came through the use of this medicine. I could not move in bed only as they lifted me, and I could not sleep when opiates were given me. The medical treatment I was taking seemed of no avail. Then I was advised to try Dr. Williams' Pink Pills, and soon I began to get relief. After taking six or eight boxes the rheumatism was banished and I have never felt better in my life. It is several years since this happened and I have had no return of the trouble since. I may add that I recommended the pills to two of my friends who were suffering with rheumatism and the pills were equally effective in both cases."

Try Dr. Williams' Pink Pills for anaemia, rheumatism, neuralgia, indigestion or nervousness. Take them as a tonic if you are not in the best physical condition and cultivate a resistance that will keep you well and strong. You can get these pills through any medicine dealer or by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Livestock Industry Prosperous

The livestock industry of Alberta was responsible for a revenue of $8,775,257 in 1928, according to D. A. McKenzie, Dominion markets representative. The livestock industry is enjoying a measure of prosperity which should encourage those engaged in this branch of agriculture to face the future with confidence, he stated.

Miller's Worm Powders will purge the stomach and intestines of worms so effectively and so easily and painlessly that the most delicate stomach will not feel any inconvenience from their action. They recommend themselves to mothers as a preparation that will restore strength and vigor to their children and protect them from the debilitating effects which result from the depredations of worms.

If we dig down into the earth to a depth of about 25,000 feet we find a temperature of 200 degrees.

Sweet and palatable, Mother Graves' Worm Exterminator is acceptable to children, and it does its work surely and promptly.

Great Britain uses less than one-half the amount of paper consumed in the United States.

There may be other corn removers, but you will not be completely satisfied until you have used Holloway's Corn Remover.

"Should an airplane be referred to as 'she'?" asks an inquiring subscriber. All except the mail planes.

Minard's Liniment prevents Flu.

ECZEMA PILES COLD-SORES RINGWORM & ULCERS

Zam-Buk UNEQUALLED FOR

Quickly soothing and healing Zam-Buk is splendid for skin troubles of all kinds. It heals with the aid of Nature's herbs, in Nature's own way.

May Be the Reason

Women's feet are now two sizes larger than they were twenty years ago, according to an orthopedic expert. Is this because she has been trying to fill man's shoes.

Freedom From Asthma. Asthma is one of the most distressing troubles, sudden in its attacks and prolonged in its agonies. Frequently many things are tried, but nothing seems to give hope of relief. Dr. J. D. Kellogg's Asthma Remedy is the one help which can be depended upon. If you have tried other remedies without success, do not fail to get at once a package of this uniformly successful preparation.

Wonders Of Suez Canal

Business Has Grown Enormously Since Waterway Was Opened in 1870

Advices from Port Said express the opinion that the passing through of the huge Singapore Dry Dock in two sections is the greatest feat ever accomplished by that waterway, although usually ships pass through the canal in 15 hours. In 1870, the year after the canal was opened, the average time of passage was 48 hours, and the largest ship accommodated was one of 4,414 tons. Today ships of 27,000 tons pass through the canal. Last year 5,515 ships with a total net tonnage of 28,962,048 passed through with transit receipts amounting to $42,000,000. In 1870 the number of vessels was 486 with a tonnage of 436,609, while the receipts amounted to $5,584,000.

Use Minard's Liniment for the Flu.

The Father—"Well, Johnny, don't you want to come in and see the new little sister the stork brought you last night?"

Four-year-old—"Nope, but I'd like to see the stork."

A venerable Scot purchased a radio set. A few days later his friends asked him how he liked the set. "Well, it's aw richt to listen to, but those bulbs are nae guid to read by."

Minard's Liniment for the Grippe and Flu.

Sparrows at Mayence, France, are artistic. Before building nests they wait for an annual rose carnival, then make their homes with confetti picked up from the streets.

Don't Neglect Bronchial Colds

Pneumonia, "Flu" and other dangerous maladies develop from common colds. To prevent trouble take Buckley's Mixture. It quickly relieves the Cough and removes the cause. Different from old-fashioned syrups. It's a scientific combination of proven virtues. Sold by all druggists and guaranteed.

Elephants are keen neither of sight, or scent, nor of hearing in comparison with other jungle inhabitants.

ASPIRIN

You doubtless depend on Aspirin to make short work of headaches, but remember that it's just as dependable an antidote for many other pains! Neuralgia? Many have found real relief in an Aspirin tablet. Or for toothache; an effective way to relieve it, and the one thing doctors are willing you should give a child— of any age. Whether to break up a cold, or relieve the serious pain from neuritis or deep-seated rheumatism, *there's nothing quite like Aspirin.* Just make certain it's genuine; it must have Bayer on the box and on every tablet. All druggists, with proven directions.

Physicians prescribe Aspirin; it does NOT affect the heart

Aspirin is the trade mark (registered in Canada) indicating Bayer Manufacture. While it is well known that Aspirin means Bayer manufacture, to assure the public against imitations, the Tablets will be stamped with their "Bayer Cross" trademark.

Only choice leaves grown at high altitudes go into the blending of Blue Ribbon Tea. That is why its flavour is so uniformly excellent. Insist upon getting it from your grocer—refuse substitutes of inferior quality.

Preparing For Air Service

Aerodromes Are To Be Built In South African Jungle

Jungle aerodromes are being laid out in Africa in preparation for the air service from Cairo to Johannesburg. Thousands of trees have had to be felled and their roots dug up to provide landing spaces. Ant-hills have been, in many places, removed by hand, as no other means were available. Some of them were over 25 feet in height. Experimental flights are to be made next summer as a preliminary to the regular service. The whole journey of 5,000 miles will take five or six days instead of two months by existing means of transport.

To Prevent "Flu"

INFLUENZA GERMS FIRST ATTACK THE NOSE AND THROAT

Dangerous germs which lodge in the breathing give you Grippe, Flu, or Influenza. You can destroy these germs if you cleanse your nose, mouth and throat with **Catarrhozone.** When the healing vapor of Catarrhozone is inhaled it releases powerful antiseptics which destroy every vestige of germ life.

Protect yourself against "Flu" by using **Catarrhozone;** it stops a cold in a few moments, cleans the nostrils, takes soreness out of the throat. All the irritating matter in the nose and throat that smells so bad, that gives you a headache and makes you cough—**Catarrhozone** clears it all away.

For Influenza, Catarrh, Nose Colds, Irritable Throat, you will get prompt and effective action from **Catarrhozone.** Carry the Inhaler in your purse or pocket, etc., use it frequently. Complete outfit $1.00. Smaller size 50c. at all dealers.

Tooth Weighs 300 Pounds

The largest tooth in the world, 11 feet 2 inches long and weighing more than 300 ponds, has just arrived at the Harvard Dental School Museum. It came from the jaw of a mastodon, and scientists estimate that it is more than 50,000 years old Before the tusk was found in Alaska, the largest known specimen was the 9-foot one in the Carnegie Museum, Pittsburgh.

Business Was Good

Four million miles of flying were recently completed by the cross channel fleet of the Imperial Airways. Since 1924 the company's 'planes carried more than 97,000 passengers and 3,000 tons of freight between London and the continent of Europe.

The only difference between the composition of the sugar on your table and the gasoline in your car is that the sugar contains a gas called oxygen which the gasoline does not.

THINNESS

Over-thinness is detrimental to a child's progress in growth and health.

Scott's Emulsion

of vitamin-rich cod-liver oil is a body-building food and tonic that overcomes thinness and helps build up a sturdy body.

Scott & Bowne, Toronto, Ont. 25-63

Four European Tours

C.N.R. Complete Arrangements For Personally Conducted Trips This Summer

Pennies are being saved, and History and French are being brushed up by scores of Western Canadians who are looking forward to a tour of Europe this coming summer. Early as it is in the season, the Canadian National Railways have already announced the completion of arrangements for their four annual personally conducted European tours. The Cunarder, "Andania," will leave Montreal on July 5, and from the word "Go!" it will be high holiday for the school-teachers and other lucky ones who are on board.

Motor jaunts through England and Scotland will take inn places Scotland will take in places names make the imagination quiver—Melrose Abbey, Holyrood, Abbotsford, Warwick Kenilworth, Stratford-on-Avon, Oxford, Hampton Court, Stoke Poges—there will be a steamer trip on Lock Lomond, a visit to the Trossachs, and days in Glasgow, Edinburgh and London. Then there will be a long stay in Paris and a journey to Versailles and to the battlefields.

Those who stay in Europe longer will visit Brussels, and Cologne, and Switzerland, and the travellers with even greater leisure will have the joy of going down into Italy—Milan, Venice, Florence Rome, Genoa—and to Nice and Monte Carlo.

The first return steamer, the "Aurania," will depart from Southampton on August 3; the second, the "Ausonia," from Cherbourg, on August 10; and the third, the "Alaunia," from Cherbourg, on August 24.

Mothers Warned Of Colds That Follow the Flu

Attack Weakened System and Pave Way for Pneumonia or New Case of Influenza

BEST TREATED EXTERNALLY

Physicians advise that the chief danger in this epidemic is after influenza. Then, more than ever, colds attacking the weakened system may lead to bronchitis, pneumonia, or a second and more severe case of flu This is especially true of children.

Flu nearly always leaves the stomach upset. Internal medication should, therefore, be avoided, as it so often further disturbs the digestion and thus retards recovery.

But if a fresh cold comes, don't let the child keep it overnight. Just rub Vicks on throat and chest at bedtime. As it is applied externally, Vicks can be used freely even on the youngest child, with no fear of upsetting a delicate stomach.

Vicks acts two ways at once (both absorbed and inhaled) to check the cold and avoid serious complications. And, of course, it is just as good for adults.

Transforming Palestine

A powerhouse is being erected on the River Jordan a few miles below the Sea of Galilee. The river drops 2,000 feet in 101 miles. Automobiles, electric lighting and steam railway trains are working a transformation in Palestine.

Minard's Liniment for Coughs and Colds.

WORLD HAPPENINGS BRIEFLY TOLD

A report that Russia and Japan had severed diplomatic relations was officially denied in Moscow.

Thirty-two named or numbered varieties and strains of spring wheat were tested at the Central Farm at Ottawa in 1927.

Captain Isaac Coffin, believed to have been the last survivor of the Crimean War, is dead, aged 93. He was born in St. John, N.B.

Production of automobiles in Canada during the calendar year 1928 reached a new record of 242,382 cars, having a sales value f.o.b. plant of $151,826,338.

Four million miles of flying were recently completed by the cross-channel fleet of the Imperial Airways. Since 1924, the company's planes carried more than 97,000 passengers and 3,000 tons of freight between London and the continent of Europe.

Sore Corns Drop Off If You USE "Putnam's"

When you notice any sign of callous on the feet or toes that's the time to paint on a few drops of PUTNAM'S CORN EXTRACTOR. Do this, and you prevent corns. No matter if the corn is hard or soft. Let it be on top or between the toes, Putnam's will remove it without pain. Insist on PUTNAM'S CORN EXTRACTOR. It does the work—and roots out the corn, quickly and without pain.

SUNDAY SCHOOL LESSON

FEBRUARY 17

PRAYER

Golden Text: "If ye abide in Me, and My words abide in you, ask whatsoever ye will, and it shall be done unto you."—John 15.7.

Lesson: Genesis 18.23-33; Exodus 32.21, 32; Nehemiah 1.4-11; Daniel 6.10; Matthew 6.5-15; Luke 18.1-14; John 17.1-26; 1 Thessalonians 5.17; 1 John 5.14,15.

Devotional Reading: Psalm 121. 1-8.

Explanations and Comments

Prayer Should Be Sincere, Mt. 6. 5-8.—And when ye pray, ye shall not be as the hypocrites; for they love to stand and pray in the synagogues and in the corners of the streets, that they may be seen of men. It was the appearance of righteousness that the hypocrites coveted, not the righteousness itself.

"To be seen of men is, after all, one of the most influential incentives to human conduct. Some people go into reckless extravagance in order to be seen of men as rich; and the average person would rather be seen to have certain qualities than actually to possess them."—H. S. Brewster.

"Verily I say unto you, "They have received their reward," said Jesus in regard to the hypocrites. The Greek word translated "received" means "received in full," and is the one used in drawing up receipts. They have received the full reward which they sought, they have been seen of men, and this was what they desired, they have no claim whatsoever to any further reward.

"Nor will he to those lips attend
Whose prayers are not sincere."
—John Buxton.

But thou, when thou prayest, enter into thine inner chamber, and having shut thy door, pray to thy Father, who is in secret. The inner chamber with closed door stands for any place where we are alone with God. For Nathaniel it was under the fig tree, for Peter, it was on the housetop. Jesus himself chose the mountain-side and the garden for His communing with His Father. When you pray shut out the world and shut yourself in with God. "Dew falls, we are told, only when the atmosphere is still, and the dew of prayers will fall abundantly on our souls only when we are at leisure." Jesus is not disparaging public prayer (which He elsewhere commands), but He is emphasizing the test of sincerity which private prayer affords.

And thy Father who seeth in secret shall recompense thee.

The Many-Purpose Oil. — Both in the house and stable there are scores of uses for Dr. Thomas' Eclectric Oil. Use it for cuts, bruises, burns, scalds, the pains of rheumatism and sciatica, sore throat and chest. Horses are liable very largely to similar ailments and mishaps as afflict mankind, and are equally amenable to the healing influence of this fine old remedy which has made thousands of firm friends during the past fifty years.

Once when mother spoke of reducing she meant expenses.

Western Canadians To Tour Maritimes

Principal Towns and Beauty Spots Will Be Visited

In an effort to bring closer together the East and the West, Dr. F. W. Fallis, publisher of the "New Outlook," the official periodical of the United Church in Canada, is organizing, with the co-operation of the Canadian National Railways, a tour of the Maritime provinces for the benefit of Western Canadians. The tour will leave Toronto by special Canadian National train on June 17, visiting Ottawa, Montreal, Quebec going by steamer up the Saguenay River, thence by rail to the principal towns and beauty spots of New Brunswick, Nova Scotia, and Prince Edward Island. More than 80 persons from Winnipeg and the west are expected to take part in the tour, which will be personally conducted.

Variety in London

Odd conditinos are frequently brought to light in connection with the boroughs of London. Often opposite sides of streets are in different boroughs. One pavement will be illuminated by incandescent gas; across the road electric light is used. The dustbins of the "odds" are more frequently emptied than those of the "evens." A child living at No. 11 may attend a school from which No 12's infants are debarred.

General William Booth started the Salvation Army standing on a soap box outside a saloon in the East End of London.

The most important phase of aeronautics which is developing in Canada is the use of aircraft in mineral exploration and development.

"His wife used to be a peach."

"She still is. She's a peach o' Reno."

FOR MOTHERS OF YOUNG CHILDREN

Mothers are quick to praise anything which brings health and comfort to their little ones—any medicine that will make the baby well and keep him well will always receive hearty recommendation from the mother. That is why Baby's Own Tablets are so popular. Thousands of mothers throughout the country, not only use them for their own little ones but are always delighted to be able to recommend them to other mothers. Thousands of mothers have proved Baby's Own Tablets to be without an equal in relieving their little ones of any of the many minor ailments which arise out of a derangement of the stomach and bowels. Baby's Own Tablets are the ideal laxative—easy to take but thorough in action. They banish constipation and indigestion; break up colds and simple fevers; expel worms and make the teething period easy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A married man says that he was always fond of tongue—and he likes it still.

Reduce the Acid

Sick stomachs, sour stomachs and indigestion usually mean excess acid. The stomach nerves are over-stimulated. Too much acid makes the stomach and intestines sour.

Alkali kills acid instantly. The best form is Phillips' Milk of Magnesia, because one harmless, tasteless dose neutralizes many times its volume in acid. Since its invention, 50 years ago, it has remained the standard with physicians everywhere.

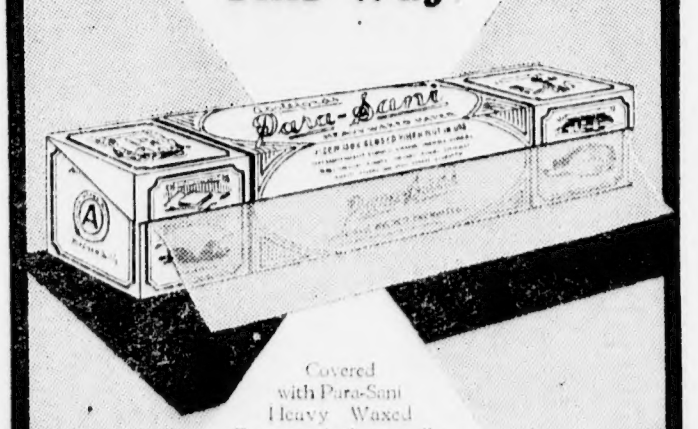
Take a spoonful in water and your unhappy condition will probably end in five minutes. Then you will always know what to do. Crude and harmful methods will never appeal to you. Go prove this for your own sake. It may save a great many disagreeable hours.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Foods Stay Fresh

Longer

This Way



Covered with Para-Sani Heavy Waxed Paper goods that usually stale in a day or so stay *fresh* for quite a long time. Try it. Get Para-Sani in the handy, sanitary, knife-edged carton at grocer, druggist or stationer. For less exacting uses get "Centre Pull" Packs in sheet form.

PITHY VIEWS ON LIFE

Lord Dewar, one of the industrial leaders of England, and a bachelor, has written some very witty and pithy sayings on life and marriage, which will live after him. For instance:

Life is made up of trials, with an occasional conviction.

To some mothers life is just one darn stocking after another.

Most men are believers in heredity until the son makes a fool of himself.

Man reaps what he sows, unless he be an amateur gardener.

Many a bachelor has been wrecked by a permanent wave.

Four-fifths of the perjury of the world is expended on tombstones

A laugh is as necessary to a human being as sunshine is to a cabbage.

Providence never intended us to equal except when we are asleep.

No man is so good but a good woman can make him better.

A golden wedding is when a couple has gone fifty-fifty.

Marriage is a great institution—for those who like institutions.

Marriage is a committee for two, with power to add to their number.

There are more Mormons in London than in Salt Lake City, but their wives don't know it.

A husband should tell his wife everything he is sure she will find out and before anyone else does.

If husbands went everywhere their wives told them to go, there would be fewer divorces but more widows.

Divorce is a great institution; it keeps women in circulation.

No gentleman has ever heard your story before.

A man's reputation is that which is not found out about him.

The road to success is filled with women pushing their husbands along.

It is not so much what a man stands for as what he falls for.

GAS FORCES WOMAN TO SLEEP IN CHAIR

"Nights I sat up in a chair, I had stomach gas so bad. I took Adlerika and nothing I eat hurts me now. I sleep fine."—Mrs. Glenn Butler.

Even the FIRST spoonful of Adlerika relieves gas on the stomach and removes astonishing amounts of old waste matter from the system. Makes you enjoy your meals and sleep better. No matter what you have tried for your stomach and bowels, Adlerika will surprise you.—A. F. McKibbin, Druggist.

Well I'll be Darned

Bride—My husband had a hope chest too, before we were married.

Friend—What did he have in it?

Bride—Why, about a bushel of socks, waiting to be darned.

Mac—What's the racket in the barber shop?

Doc—Oh, that's the barber shaving himself.

Mac—But why all the noise?

Doc—Oh, he's just trying to talk himself into having a shampoo.

Twenty head of holstein cattle from Alberta pure bred herds have arrived at Vancouver over Canadian Pacific Railway lines for shipment to Japan. These cattle were collected for a Japanese buyer by deputy minister of agriculture Craig. Quite a few such shipments have passed through this port recently. The purchase of the stock for Japan was made through the Alberta government and the cattle were selected from various herds in the province. Several of the animals or their immediate ancestors have records of 20,000 pounds of milk per year and all of them are from high producing dams.

A monster black bear weighing over 400 pounds that stalked upright through the woods seeking what or whom it might devour and which had no forepaws, has just been trapped in New Brunswick, according to Dave Ogilvy, well-known guide and outfitter. The beast used to rifle all the garbage dumps and refuse heaps in the neighbourhood of Plaster Rock, on the line of the C. P. R., and was caught by means of a trap hidden under dead leaves and some old paint tins. Examination of the body showed that its forefeet were crippled, either by deformity at birth or by an accident, and that it must have walked about on its hind feet. Only tracks of the rear paws had been found, and considerable mystery existed as to the maurader. Seymour Traffon and Jock Ogilvy caught the bear, whose skin measured over seven feet in length.

Who Does Your Printing?

All business houses need more or less printed matter, all of which is within the possibilities of the local printer. Yet how prone many are to pass up the home printer and let the orders go to city offices which have no interest whatever in rural communities except to get printing orders and the cash to pay for them. Business men, remember that the home paper is constantly promoting the interests of the home community and you owe it to yourself and your local paper to back up these efforts by at least having your printed matter done locally.

What Will *you do*

When *your* Children Cry for It

There is hardly a household that hasn't heard of Castoria! At least five million homes are never without it. If there are children in your family, there's almost daily need of its comfort. And any night may find you very thankful there's a bottle in the house. Just a few drops, and that colic or constipation is relieved; or diarrhoea checked. A vegetable product; a baby remedy meant for young folks, Castoria is about the only thing you have ever heard doctors advise giving to infants. Stronger medicines are dangerous to a tiny baby, however harmless they may be to grown-ups. Good old Castoria! Remember the name, and remember to buy it. It may spare you a sleepless, anxious night. It is always ready, always safe to use; in emergencies, or for everyday ailments. Any hour of the day or night that Baby becomes fretful, or restless, Castoria was never more popular with mothers than it is today. Every druggist has it.

CHAPTER XIV.—Continued.

"To hell mit him!" shouted Hand. "He don't dare do it. Rush him."

But the mob did not obey their leader's rash command. Donald's pale face and burning black eyes were sufficient evidence that he made no idle threat. Donald saw the big hand of his foreman stealing to the butt of the heavy Colt that hung at his side. "Keep cool, Jack," he begged; "don't start anything."

For days Gillis had been without sleep. He turned bloodshot eyes on Donald. "By G ——! I would like to take a crack at Hand," he said in a voice thick with rage.

The hostile crowd did not advance; neither did they leave. Scattered in groups, they lay or sat on the hillside to shout occasionally words of derision at Donald's faithful crew.

Donald's nerves were on edge. At any moment there might be a pitched battle with loss of lives. He studied the faces of the strikers to see how many were from his crew, and was surprised to recognize fully 40 of his men. He saw "Blackie" in the rear of the crowd of strikers. When his eyes met Donald's he turned away shamefacedly. All the men from his camp refused to meet his gaze squarely. "Those men are ready to come back right now," he said to Gillis. "Hand has bullied them into this. Don't you think so?"

"I don't know," answered Gillis. "I never thought Blackie would go back on me. I'll wring his d——d neck when I catch him in town!" he added bitterly.

Donald heard a slight movement behind him, and turned to see Connie standing with her rifle in the crook of her arm.

"Good heavens! Connie, you shouldn't be here!" he exclaimed.

Connie's face bore traces of weariness and sleeplessness. For three nights she had stolen softly away from her cabin on the hillside to lie hidden outside that of Donald. By night she had kept up a weary vigil, ever on the alert; in the forenoon she had lain behind a stump on the hill with eyes on Donald's tall figure whenever he came in sight, her rifle ready for instant action. Hand did not know that death had nearly claimed him when he stepped forward to urge his men to charge. At that crucial moment Connie's rifle was aimed at his heart.

"Get away from here at once, Connie!" said Donald, firmly, but kindly.

Connie lowered her eyes to her moccasined foot, that was weaving patterns in the dry soil, and shook her small head obstinately.

"Why do you wish to stay?" he asked.

She patted the stock of her rifle. "I—I want to help you."

Donald looked down at the weary little figure. He stepped down from the stump, keeping a wary eye on the belligerent strikers, and came to her side. "Connie," he said softly, "you are a dear, brave little girl, but you must get away from this place as there may be serious trouble. Please, Connie," he entreated, reaching out a hand to stroke her shining hair.

Connie's face paled quickly, and she shrank from the caress. Her slender body trembled at his touch, and his display of tenderness brought a sudden rush of tears to her eyes. But she made no move to leave the scene.

Finding that he could not shake Connie's determination to stay Donald returned to the vantage point of the stump. "Jack," he said, turning to his big foreman, "I am going to make one last appeal to these men. If I am any judge of human nature about half of them, if they can save their faces, will welcome the chance to go back to work. They are being dominated by Hand."

Gillis shrugged his shoulders. "Do what you think best," he said.

Donald passed the dynamite to Gillis and stepped forward with his arms extended, palms upward. The crowd moved uneasily. Hand came slowly to his feet, his small eyes narrowed with suspicion.

"What's up?" he growled.

"Men," Donald began in a high clear voice, "I would like to convince you that you will gain nothing by your present tactics. Bloodshed will surely ensue. I have orders to refuse your exorbitant demands. Personally, I have no choice in the matter; there is no other course for me to pursue. In spite of your interference we will continue working with the few men who have remained loyal. I will ask for police protection only as a last resort. I appeal particularly to the men who worked for me here at this camp. Is there one of you who can truthfully say that you were not accorded fair treatment? Is there one of you who will not admit that the general equipment for your comfort is unequalled in any camp in British Columbia? You are making a mistake, men," he went on in a pleading tone, "a mistake you will be sorry for later, for you will be blacklisted in every camp in the country. Go back to work, and I promise you there will be no mark against you. That's all."

Donald walked back to Connie's side. The men had not interrupted him once.

Hand turned to the wavering crowd. "To hell mit him and all capitalists!" he snarled. He turned to shake a huge fist at Donald. "You threaten us, do you? You d——" The epithet that came from his coarse lips was one that would cause any decent man to see red.

Donald stiffened. His face turned livid. "You dirty cur!" he flamed. "Don't you know that there is a lady present? You apologize to this little girl or I will whip you within an inch of your life!" His voice trembled with passion.

"Lady," scoffed Hand, "vat you call a lady? She moost be nice lady, runnin' in de woods wit' you ev'ry Sunday."

A murderous look shot from Donald's dark eyes. A terrible rage possessed him, a rage that made his blood feel hot in his veins and gave him the unnatural strength of a madman. A dull red flamed in Connie's tanned cheeks. She sat down and covered her hot face with her hands.

Andy now came running from the cook-house, dressed in white cap and apron, his rifle trailing at his side. "What's goin' on, Donnie?" he questioned.

Donald did not answer. Gillis spoke to Andy in an undertone.

"My God, Donnie, 'e's twice your size! Don't fight 'im!" implored Andy.

"I'll kill him!" rasped Donald.

Gillis seized his arm. "Let me fix the d—— skunk; he's nearer my size."

"No, this is my affair!" shaking himself from the grasp.

The sound of a paddle came from below, and the trapper sprang from his dugout and came swiftly up the hill. As Andy briefly explained the situation the old man's grey eyes narrowed to mere slits beneath the shaggy brows.

"Ah!" he breathed. "Me and 'Betsey'," patting his six-shooter, "we likes to shoot up bohunks. We shoots them in the heel so's to save their clothes." His mouth was set in a grim smile, a smile that was belied by the steely look in his deep-set eyes. He seated himself on a log and placed his gun on his knees.

Donald had by this divested himself of coat and shirt and now stepped forward dressed in light cotton trousers, a sleeveless undershirt and moccasins. "Hand," he said in a steady voice, "this is between you and me. See to it that your men do not interfere; I will vouch for mine."

The big foreigner was rubbing his big hands as though in pleased anticipation. "I suppose you know how we iss goin' to fight? Everything goes, you know." His grin was fiendish.

Donald knew what was meant. There were to be no rules of combat; no time duration; no referee; no rounds, and woe to the man who should go down. It was to be a battle as of primeval man. It might result in terrible injury and mutilation. He sickened at the thought.

(To Be Continued.)

A Clever Idea

The Durham Chronicle tells of a young man who visited a store in that town, purchased three dozen eggs on credit, took them to another store and sold them and used the money to buy gas for his car. This is probably the first instance of a thirty-six hen-power automobile.

A steadily increasing group of words making its way into the dictionary is that of dialectal, provincial and local words and expressions.

A Remedy For Earache.—To have the earache is to endure torture. The ear is a delicate organ and few care to deal with it, considering it work for a doctor. Dr. Thomas' Eclectric Oil offers a simple remedy. A few drops upon a piece of lint or medicated cotton and placed in the ear will do much in relieving pain.

Edna: "Chivalry is dead. Can you imagine a man today like Sir Walter Raleigh spreading his coat for a woman to cross a mud-puddle?"

Crawford: "He wouldn't have to. She'd jump it!"

ECZEMA IN RASH ON HANDS

Troubled For Three Years. Healed by Cuticura.

"I was troubled with eczema on my hands for three years. It appeared in a rash and then formed blisters. It troubled me much worse in winter so I could hardly put my hands in water or be near heat. My hands were terribly inflamed and disfigured. I had to wear old gloves to keep from scratching.

"I saw a Cuticura Soap and Ointment advertisement and sent for a free sample. I got relief from it so I bought more and after I had used them for three months I was healed." (Signed) Miss Beatrice Aiken, Highwater, Que.

Use Cuticura Soap, Ointment and Talcum for daily toilet purposes.

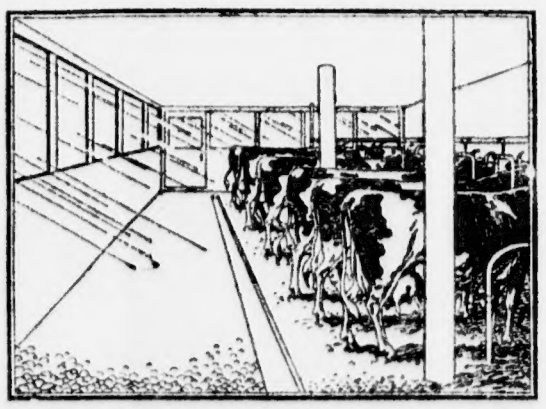
Sample Each Free by Mail. Address Canadian Depot: "Stanhouse, Ltd., Montreal." Price, Soap 25c. Ointment 25 and 50c. Talcum 25c.

Cuticura Shaving Stick 25c.

WINDOLITE

The Improved Glass Substitute

MADE IN ENGLAND



WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandahs, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold —will not crack or chip,—cuts with an ordinary pair of scissors and is easy to fit. **WINDOLITE** is supplied in rolls any length but in one width of 36 inches only. A square yard of **WINDOLITE** weighs about 14 ozs.; while a square yard of glass of ordinary thickness, weighs about 135 to 140 ozs. The improved **WINDOLITE** requires no varnish. **WINDOLITE** is made in England.

Price $1.50 Per Square Yard, f.o.b., Toronto.

Use WINDOLITE and let

YOUR CATTLE
Bask in 100 % Sunlight
Send for booklet "WINDOLITE"

COMES WITH A MESSAGE OF HEALTH

THE sun is the all-powerful life producer, Nature's universal disinfectant and germ destroyer, as well as stimulant and tonic. **WINDOLITE** is the sun's most important ally.

Medical research has definitely proved that from the point of view of Health and Hygiene, the most effective among the sun's rays are the Ultra-Violet rays, which possess the greatest power for the prevention and cure of disease and debility.

Science has further established that ordinary window glass does **not** allow the passage of Ultra-Violet rays, so that by using glass we are artificially excluding these vital health-giving rays. Therefore, the invention of **WINDOLITE** has completely satisfied the long-felt want. Exhaustive experiments have conclusively proved that it is a most effective substitute for glass, that it freely admits the Ultra-Violet rays, and that its use has a most beneficial effect on the growth and development of plants and chickens and on the well-being of cattle, enabled for the first time to have healthy light instead of darkness in their sheds.

Indeed, the discovery of **WINDOLITE** has during the last six years completely revolutionized gardening, given a new stimulus to poultry breeding, increasing the egg-laying capacity and fertility of chickens, has greatly improved the health of cattle and is now being used in domestic and household requirements.
